mobbing together and have pleasant talks and such things. There are several widows and divorcees here I intend looking over very carefully before I return, but I will make no selection before I have talked it over with you. There is a widow, right small, about forty years old, very pretty, that I hear a lot of good about. She has a nice little nose and black hair. She says she does not like Chicago. The dirty streets, the houses and such things remind her of her late husband. New York is where she wants to live, and she has an ample fortune to do what she pleases with. She is a little black and white dream."

Telegram sent to Miss Graham at 159 Auburndale Avenue, Memphis, Tenn., in June, 1907, read: "Photograph superb. Keep your health and good looks. Have written."

In another letter Miss Graham was advised as follows:

"Keep your head, don't touch wine, beers or liquors. They will ruin your complexion. You know the stage is not my advice. If you need anything I will help you. Sorry you spent that \$1,500, but a star at \$2,000 a week, I suppose, has to pay \$45 and \$50 hats."

CONDITION IS SERIOUS.

Little Hope Entertained for Recovery of Injured Policeman.

Asheville, N. C., July 6.—Reports from the bedside of Policeman E. C. McConnell, the local police force, who was shot and seriously wounded by the negro, John Hoff, last Monday, are discouraging to-night, and but little hope for his recovery is entertained. His temperature is given at 101, and his physicians state that pneumonia has developed in the right lung. The reported location of Hoff at Greenville, S. C., last night has not yet materialized, and messages received here to-day indicate that the fugitive is still at large.

SALOONS COME BACK

Citizens of Mobile Vote for Their Return to Business.

Mobile, Ala., July 6.—The city voted for the return of licensed saloons to-day under the recently enacted local prohibition law by a vote of 158, and in the county the majority will reach 3,000 when all the returns are in.

Manson to Introduce Jones.

[Special to The Times-Dispatch.] Lynchburg, Va., July 6.—Announcement was made this afternoon that N. C. Manson, attorney for the city of Lynchburg, and one of the best-known lawyers of the local bar, will make the speech Friday night to introduce Congressman William A. Jones, when he makes the first address of the senatorial campaign at the City Auditorium.

Another Cholera Victim.

New York, July 6.—Another case of Asiatic cholera brought into the port on an ocean liner was discovered to-day. The victim was a steamer passenger on the steamer Moltke, which arrived yesterday from Genoa, Naples and Palermo, and was detained at Quarantine pending investigation of a suspicious case of illness. The result of the examination convinced Health Officer Doty to-day that it was a case of cholera.

Burke Breaks Record.

Columbia, S. C., July 6.—John "Rabbit" Burke, centerfielder of the Columbia South Atlantic League team, broke the world's record to-day. It is claimed, for a hit-and-run to first, three times, getting to the bag in three seconds flat, according to two stop watches. The world's record, made by Thoney, now of Boston, at Cincinnati in 1907, stood at 3.4 seconds.

USE 'GOLDEN RULE' TO SAVE TRUST

Washington, July 6.—Representative Stanley, of Kentucky, chairman of the House steel trust investigating committee, has followed with lively interest the proceedings of the international steel conference at Brussels. He expressed the belief to-day that the encouragement at Brussels of a "Golden Rule" principle of doing business was a desire of the United States Steel Corporation to neutralize any action Congress might take as a result of the investigation of that concern. In a statement, Mr. Stanley said: "If as a result of this investigation the steel trust should be dissolved—let me say that it will—the steel trust undoubtedly would be forced to compete absolutely in an open market with the world's output, and without tariff protection would be forced to cut prices."

"But if an international agreement limiting the world's output and possibly prescribing limits of territory for the sale of the output of each individual country can be arranged, the steel trust need fear no foreign competition. Upon that basis, the action of Judge Gary in endeavoring to secure a world-wide understanding is a natural one."

Representative Stanley said he believed the inquiry will result in reducing the duty on steel products.

Germany Refuses to Show Her Hand

Paris, July 6.—The proposed conventions for the settlement of the Moroccan question have not yet started, and a difficulty in the way is the refusal of Germany to show her hand and make known what she wants. In addition to her territorial claims, a warship at Agadir, which is particularly objectionable to France.

It is understood here that Germany desired to negotiate with France alone, with the object of partitioning Morocco between France, Germany and Spain, but France opposed any plan which does not provide for the active participation of Great Britain, whose intention unequivocally to support France in the present complication greatly pleases the French people.

There is the utmost confidence, however, that the matter will be settled through diplomatic channels, and the situation is expected to develop more rapidly upon the return here from Holland of President Fallieres and Foreign Minister De Selves.

Hot-Weather Constipation

People should be very careful at this time of the year not to become constipated, and if they do become constipated to attend to it promptly. Many people have a special tendency to constipation in hot weather, owing to the sudden change in food and to the fact that the moisture of the body that in winter remains within and helps to digest the food, leaves the system in the summer in the form of perspiration. Constipation should be relieved by taking salts and laxative waters, which are all that is needed. Dr. Caldwell's Syrup Pepsin, which acts quickly but mildly, and which can be bought of any druggist, is the best remedy for constipation. A bottle of it can be sent FREE OF CHARGE by sending their address for a SAMPLE.

PANACEA FOR FINANCIAL ILLS

Creeland Says Aldrich Central Bank Plan Will Remedy Present Troubles.

Sandusky, O., July 6.—Declaring that the Aldrich central bank plan, if adopted by Congress, will prevent all panics, and blaming the present banking system and the bankers themselves for the great financial uprisings of the past, Congressman E. B. Creeland, of New York, a member of the National Monetary Commission, delivered an address before the Ohio Bankers' Association at Cedar Point to-day.

Mr. Creeland said a central banking system would benefit the business interests of the country, and not the stock exchanges. He charged the bankers with being more responsible for panics than any other class of people. When a scare comes, he said, they draw out their own money and refuse to make loans.

MAN ENTANGLED IN LIVE WIRE

[Special to The Times-Dispatch.] Spencer, N. C., July 6.—Entangled in a live wire, twenty-five feet from the ground, a man was killed by a telephone line. The victim was a man named Williams, who was seriously burned to-day when 2,300 volts of electricity passed through his body. He was employed by the Southern Bell Telephone Company in building the plant at Spencer. The accident occurred at the same spot, and in the same manner in which another employee was dangerously hurt yesterday, and which was witnessed by Williams. He is in a hospital in a precarious condition.

GERMANY REFUSES TO SHOW HER HAND

Dies of Lockjaw.

Columbus, O., July 6.—Claude Worpel, aged eighteen, who came here from Huntington, W. Va., last Monday, died today of lockjaw, which he contracted while he ran a nail in his foot.

Doesn't Consider Himself Burglar

New York, July 6.—I don't consider myself a burglar, said a recent tenant of the Metropole, who was arrested last night for breaking into the hands of a police officer a box containing jewelry and other valuables. The man, who was a Norwegian, said he had committed a score of burglaries in the past, and that he was now in the hands of the law for the first time.

Half-Dress in Disarray.

Omaha, Neb., July 6.—Reports from Omaha, Neb., the scene of the disastrous hailstorm on Tuesday, place the property damage at not less than \$100,000. Crops were the chief sufferers, although the families, both negroes and whites, are in want of necessities of life.

EIGHT MEN HELD ON SUSPICION

Believed to Have Been Implicated in Hold-Up of Train.

Erie, Pa., July 6.—Pennsylvania Railroad detectives arrested eight men to-night on suspicion of having been implicated in the hold-up of a train No. 41 on the Philadelphia and Erie branch last Friday night. The men were rounded up at Green Garden Road, just west of the city, and gave the names of Joseph Newman, Charles Smith, Cummings, Henry Fried, Frank King, Frank Ryan, James Martin and Thomas Harrington. Several of the men answered descriptions given of the men who held up the train, and they are being held pending investigation.

ATTACK ON GOMEZ APPEARS SERIOUS

Havana, July 6.—Attacks recently made against President Gomez by a newspaper which has shown much opposition to the administration are apparently beginning to assume importance. Congressman Andres, director of the newspaper "El Dia," charged the President with the accumulation of a huge fortune during the two years of his administration.

The President has issued a statement giving an inventory of his estate, which shows it to be of only moderate dimensions, acquired prior to his assuming office. This action is deplored by his friends as weak and disgraced, and denounced by his enemies as an attempt to cover up his guilt.

The executive committee of the Conservatives discussed the matter last night secretly and decided that it did not present legal grounds for action against the President. It is now rumored that evidence has been discovered of projected uprisings in the provinces of Oriente and Pinar del Rio. The President is represented as much perturbed. He is said to have declared that at the first sign of disorder he would take the field at the head of the Rural Guard and crush the revolutionary movement.

It was learned to-night on good authority that there exists much uneasiness among the rurales, of whom nearly half are held in Havana as part of the permanent garrison, on account of their being suddenly called into active service.

Reports from the various provinces do not show definite indications of an uprising, but rumors are persistent with a strong under-current of anxiety.

Sees No Harm in Drink and Smoke

Asbury Park, N. J., July 6.—Drinking and smoking in moderation are not morally wrong, in the opinion of Dr. A. E. Ballard, president of the Ocean Grove Camp Meeting Association. Nor does the doctor discontinue cigarettes, provided they are made of good tobacco.

Speaking at the Ocean Grove Tabernacle, Dr. Ballard said he was brought up in a family where liquor was used regularly, and that he had never had any conscientious scruples about taking it. Many of the ministers and others in the congregation disagreed with the speaker as to whether there was moral wrong in drinking, but Dr. Ballard smilingly insisted that there was no wrong in the moderate use of stimulants. He said, however, that, becoming interested, he had looked into the matter of drunkenness in the United States, and finding such an amount of it, he decided that for the sake of example, if nothing else, he must stop. With St. Peter, he believed that nothing of itself was unclean, but only insofar as it made our brothers offend did it become wrong.

As for tobacco, Dr. Ballard declared he could see no harm in the use of it. He said he had been a smoker until he was fifty years old, having started so young that he wouldn't remember how easily it was. At the request of the church, which was fifty, that its ministers give up smoking for the sake of example, he had stopped it.

Dr. Ballard was asked whether he contemplated the use of cigarettes and he replied:

"Why, I don't see why not, providing, of course, they are made of good tobacco. The trouble is that a great many cheap articles are on the market which contain injurious drugs, which do the harm when smoked, and not tobacco."

The general sense of the meeting seemed to be that one's duty to abandon anything, the use of which proved harmful to others, was a duty.

COUNTRY'S THIRST GROWING RAPIDLY

In Past Year It Required 63,000,000 Barrels of Beer and \$146,973,000 Worth of Whiskey.

New York, July 6.—No less than 63,000,000 barrels of beer were sold in the United States during the twelve months ending June 30, last, or an increase over the previous twelve months of 6.21 per cent, according to the annual report of the beer and whiskey sales made public here to-day by the United States Brewers' Association. Notwithstanding the increase, which the report contends indicates that the country is prosperous, the spread of prohibition has affected the trade considerably, it is declared.

The whiskey bill of the United States for the year, according to the report, is \$146,973,000, an increase of nearly 25,000,000, or 5.6 per cent, over the preceding twelve months.

BREAKS WORLD'S RECORD

Milling Lands Aeroplane Five Feet From Starting Point.

Washington, July 6.—Lieutenant Thomas D. White, United States Army, to-day broke a world's record by landing in an aeroplane within five feet of the spot from which he arose at the army aviation school at College Park, Md. The officer, flying in the face of a twenty-five-mile wind, descended from an altitude of 1,000 feet, his accomplishment being witnessed by a large number of spectators. It was made in the presence of a representative of the Aero Club of America, who was conducting the pilot's license tests for Lieutenants Milling and Arnold. Both army officers qualified.

KILLS WIFE AND SELF

Officers Were Approaching to Arrest Farmer on Trivial Charge.

Farley, Ark., July 6.—While officers were approaching to arrest him on a trivial charge, Roy Morris, a farmer, aged twenty-five, to-day shot his wife seven times, killing her. He then turned the pistol on himself, putting three bullets into his body, dying instantly. Some time and Morris had called on his wife at her father's home in an effort to effect a reconciliation.

AUTO PARTS HAS NARROW ESCAPE

[Special to The Times-Dispatch.] Roanoke, Va., July 6.—Harold Wilson, of Titusville, Fla., his wife and fifteen-year-old son, Douglas, had a narrow escape from being killed when the automobile in which they were riding turned turtle on the national highway about seven miles from the city yesterday.

The party was en route from Titusville to Philadelphia. Mr. Wilson said to-day that they were on a rough part of the road when a rough stone got under the left front wheel of the machine and continued to stick under the wheel, causing the machine to throw out of the side of the road about seven feet. All the members of the party were thrown out of the machine. Mrs. Wilson was caught under the wheel and shield and severely hurt about the face and neck by the broken glass and a bolt in the wheel. Mr. Wilson and the boy escaped unhurt.

Some people came to their assistance, and the automobile was righted and the party came on to the city, and are stopping here until Mrs. Wilson is able to travel. Mr. Wilson is secretary and treasurer of the Florida East Coast Company (Inc.), with offices in Titusville, Fla., and Philadelphia.

COUNCIL CRITICS ARE VOTED DOWN

(Continued From Second Page.)

system, not the men, for the lack of success, and said that fifty of the best and ablest citizens of Richmond could not agree it successfully and economically under the existing form of government. Mr. Chevington took the same position.

There was an immense amount of discussion. Some thought the position of the organization would be greatly weakened by such an expression of opinion, and one speaker declared he would never vote for a proposition of the truth of which he was ignorant, as was the case in this instance. On the other hand, others there were who believed that since the committee had put the resolution to a vote, it would do more harm than good to strike it out. It was called to a vote, and the attitude of eliminating it might bring organized effort on the part of the councils of cities to the defeat of the constitutional amendment.

Goes Through at Last.

Mr. Ryan tried to have the latter part of the resolution stricken out, but was defeated by an apparent majority of about two to one. Other less important amendments met the same fate, and the resolution went through by a large majority.

Then followed an interminable discussion of a permanent organization and its scope, some speakers going as far as in a general scheme of reform, which was evidently not contemplated or desired by the committee. It was at last decided to have a permanent organization with temporary officers, including committees, one of which will see the amendment stricken out, and another to report to the next meeting. W. G. Mahone, E. M. Redford, J. A. Chevington, James F. Ryland, James P. Fox, Isaac Dayenport and J. E. Eubank, of the latter party, were named as the meeting.

Committee's Report.

The complete report of the committee, named at the former meeting, which was adopted, is as follows: "Whereas, the State of Virginia is so restricted by the present Constitution that cities of 5,000 population are practically denied the privilege of self-government, and

"Whereas, the experiences in all cities, as well as the obvious advantages of a business administration, demonstrate the benefits to be derived by radical change in the methods of municipal government, and

"Whereas, the difficulties in the way of making such changes are great, and

"Whereas, it will require unremitting and forceful effort on the part of representatives in the Legislature to make such changes possible, now, therefore, be it

The Recommendations.

"Resolved, That this committee make the following recommendations: "1. That immediate steps be taken to secure the election of members of the Legislature, who will, irrespective of party lines or other affiliations, give

themselves unreservedly to the principle of local self-government for Virginia cities.

"2. That the present candidates for the Legislature be interrogated as to their attitude toward the principles herein set forth, and that the support of the voters be sought for those candidates who will declare in favor of the principles of allowing the citizens and taxpayers freedom in the matter of determining how they shall be governed.

"3. That this committee deems it inexpedient to declare in favor of any specific form of government for the city of Richmond, believing that the whole State and city should be enlisted in the principle of freedom in charter-making before minor details be raised and discussed.

"4. This committee does not desire to be understood as criticizing in any way the present Council or its predecessors; rather this committee feels and desires to go on record as expressing its grateful appreciation for the patriotic and unselfish service that has been rendered the citizens of Richmond by the members of the Council, who, under adverse conditions and restricted powers, have given this city as successful, as clean, and as intelligent an administration as any city in the country ever enjoyed under the two-chamber system of municipal government."

The funeral will take place this morning at 11 o'clock from the residence of the child's parents, 3195 East Broad Street.

OBITUARY

Sarah Lucy Satterfield.

Sarah Lucy Satterfield, four-year-old daughter of Mr. and Mrs. John L. Satterfield, died this morning from burns received on Wednesday when she attempted to light a small crockpot.
